

**USI Cargo,**  
Great quality for great solutions.

The universal choice

**USI Cargo,**  
embraces proven technology.

USI Italia technology, always at the forefront of reliability and safety, proudly introduces "Cargo". "Cargo" The industrial-grade Spraybooth that's designed to handle the biggest jobs, with the same reliability and track record of our entire line of industry-standard Spraybooths.

Plus, with USI ITALIA, you get more than the world's state-of-the-art engineering team, you get a

worldwide service group that is dedicated to making sure you get the most out of our technology.

Technology that is recognized by leading automobile manufacturers and body shops all around the world.

Illustrations in this brochure also include custom-built models which are not part of our standard production.

Data and photos contained herein may be subject to variation without prior notice and are not binding for the manufacturer.

Publication for international use.

**Advanced technology that is worker-safe and environmentally-friendly.**

Operator safety and environmental concerns are our concerns as well. USI ITALIA coordinates its research and development with the leading manufacturers of Automotive Refinishing Products, producing spraybooths that both respect the environment and the health and safety of operators. USI ITALIA conforms and adheres to the strictest international safety codes.

Absolutely safe and reliable operation, recognized by the strictest international standard bodies.

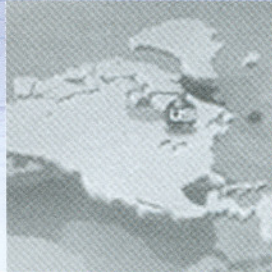

**USI Cargo.**  
Sturdy Construction for Long-Lasting Success.

Designed specifically for industrial vehicles, the USI Cargo Spraybooth is the ideal solution for painting railway carriages and earth moving machines, graders, trucks and more. And like

our other Spraybooths, Cargo is built to handle the job at hand – efficiently, economically and reliably.

Optional mobile platforms are available, allowing the operator to move vertically and horizontally along the entire length of the vehicle being painted.

Spray booth and preparation station equipped with curtains, light fixtures and overhead filtering plenum.

**USI Cargo,**  
bigger Jobs Demand Better Features

With "Cargo" USI ITALIA has included advanced features that have made even the biggest, most complicated jobs manageable. Superior air re-circulation through the world's best filtering systems, optimum air volume and state-of-the-art lighting

allow you to work in a comfortable and safe environment.

You'll appreciate door opening and closing systems that have been designed for a perfect airtight fit every time.
